

Canisters

If anyone CAN - we CAN!

Canisters

Canisters are suitable for filling liquids such as solvents, thinners, paints, oils and other chemical technical media. Type-tested versions for the transport of dangerous goods are available as standard.

The product features of canisters „made by Pirlo” at a glance:

- Top end: with a DIN 42 mm punch hole and a plastic handle
- Body: with a tactile hazard symbol (moulded)
- UN certification for liquids in packaging groups II and III with bellows screw cap
- Optimal residual emptying & stackable
- Customised printing possible

If you have any questions about canisters our experts will be happy to help. Special can sizes are possible on request.

Unrestricted suitability for all filling goods cannot be guaranteed; this must be verified by the user through their own preliminary tests. The stated application groups serve solely as a legally based guideline.

Standard sizes				
Nominal capacity in l	Dimension D1 / D2 / H in mm	Quantity per pallet	Standard	MOQ (print)
2,5	164/125/162	462	●▲	3.000
3	164/125/190	378	▲	3.000
4	164/125/245	294	▲	3.000
5	164/125/300	252	●▲	3.000
6	164/125/350	210	▲	3.000

Legend

- = Standard (samples available)
- ▲ = UN certification (for dangerous goods), sample deliveries are without certificate
- = Stock items (grey) also in smaller quantities available

Diameter [mm]	Minimum height [mm]	Maximum height [mm]
164/125	162	350
